

Combining Economy and High Performance for Essential Weighing

The Pioneer PX combines essential weighing functionality with competitive performance, offering high accuracy and repeatability for applications in laboratory, industrial and education settings. The PX is affordably priced, and intuitively designed for intelligent operation with a second line display for additional information, and USB and RS232 connectivity for easy communication.

Standard Features:

- **Competitive Performance at an Economical Price**
The PX offers high accuracy and repeatability for essential weighing applications in laboratory, industrial and educational settings at an economical pricepoint.
- **Durably Constructed for Long-Term Use**
Featuring a cast metal lower housing, sub-pan and stainless steel weighing pan, the PX is durably constructed for versatile, long-term use.
- **Designed for Simple, Intelligent Operation**
The PX features a second line display for additional information or guidance, a static removal bar for convenient grounding, a capacity bar which displays the progress of the weighing, and USB and RS232 connectivity for easy communication.

Pioneer[®] Analytical and Precision Balances

Durably constructed of cast metal lower housing, metal sub-pan and stainless steel weighing pan for long-term use.

RS232 and USB device ports allow for easy connectivity to PCs and PLCs. Equipped with a security lock to prevent unauthorized use.

Four quick keys enable easy operation of multiple weighing modes.

A static removal bar (constructed of permanent static electric dissipative ABS) provides a convenient grounding location.

Large viewing angle with bright backlit LCD display. 2 line display provides additional information or guidance prompts to the user. Capacity bar displays the weighing progress.
