

Heating oven with natural convection

The strength of the BINDER ED series heating oven: routine drying and sterilization applications up to 300 °C. Thanks to the gravity convection, thermal processes are highly efficient for this heating oven. A BINDER ED heating oven ensures fast, uniform drying.

Advantages:

- Fast, even tempering
- Wide temperature range
- Quality "Made in Germany"

Areas of application:

- Electronically controlled APT.line™ preheating chamber assuring temperature accuracy and reproducible results
- Temperature range from 5 °C above ambient temperature to 300 °C
- Digital temperature setting with an accuracy of one degree
- DS control with integrated timer 0 to 99,59 hrs
- Independent adjustable temperature safety device class 2 (DIN 12880), with visual temperature alarm
- Adjustable ventilation by means of front ventilation flap slide and rear exhaust Ø 50 mm
- Optional RS 422 Interface for APT-COM™ Data Control System communication software
- Units up to 115 liters are stackable
- 2 chrome-plated racks included
- ED 23 with space-saving door mechanism
- BINDER test confirmation

All technical data are specified for units with standard equipment at an ambient temperature of +25 °C and a line voltage fluctuation of ±10%. The temperature data is determined in accordance to factory standard following DIN 12880, respecting the recommended wall clearances of 10% of the height, width and depth of the inner chamber. All figures are typical average values for series devices. We reserve the right to alter technical specifications at any time.

Numerous access ports

With silicone plugs for introducing external measuring instruments into the chamber, access ports with 10, 30, 50 mm diameters.

Door with window and interior lighting

For optimal process control in the inner chamber, available for all device sizes.

Door lock

Prevents unauthorized access to the process sequences in the chamber.

Calibration certificate & validation

BINDER can significantly reduce the workload in qualifying and validating devices. Nobody knows our devices as well and has as much experience in certifications as we do.
