

LABORHITS

Hose Connectors

For connecting, branching, merging, repairing etc. – the areas of application for hose connectors are manifold.

That is why Bürkle offers a wide range of hose connectors in different shapes, sizes and materials to ensure a secure connection even for the most demanding applications.

Polypropylene (PP) – for Standard applications

- Temperature resistant up to +135 °C max.
- Good chemical resistance

PVDF - for demanding applications

- Temperature resistant up to +160 °C max.
- Excellent chemical resistance

Suitable for foodstuffs

Autoclavable

Hose tubing connectors, straight, cylindrical

 LaboPlast

Material	For dia. mm	Piece per VE	Cat. No.
PP	3-5	10	6.052 564
PP	5-7	10	6.052 566
PP	7-9	10	6.052 565
PP	9-11	10	6.052 194
PP	11-13	10	6.052 567

Universal hose tubing connectors

 LaboPlast

Material	For dia. mm	Piece per VE	Cat. No.
PP	4-17	10	6.079 152
PVDF	4-17	10	7.621 557

Collection | 68 hose connectors

Collection consisting of 68 connectors (PP) in different sizes (2 pieces each):

- Straight hose connector
- T-hose connector
- Y-hose connector
- Four-way-connector
- Angled hose connector
- Universal hose connector
- Reducing hose connector

Description	Cat. No.
Collection of 68 hose connectors	6.078 603
